VOL. CXXXVI.—No. 36. ALEXANDRIA GAZETTE WEDNESDAY, FEBRUARY 11, 1920. PRICE ONE CENT

INCREASED TAXES ARE NECESSARY

Council Probably Will Ley 50 Cents Additional to Meet Deficit

FOR PUBLIC SCHOOLS

ncil Defers Action on Taking Over treets in East Rosemont—Community Service Wants Armory

Alexandria by next June will have to increase its tax rate owing to the fact that the city faces a deficit because of the enormous expenses during the past year and a fifty cent increase on the $100 assessed valuation to be set apart exclusively for schools will be the recommendation of the finance committee which will bring the tax rate up to $2.50 on the $100.

President H. R. Burke, of common council, who is chairman of the finance committee, made the foregoing announcement to that body last night when the annual ordinance for imposing and collecting licenses, the ordinance for taxes and merchants license taxes were presented.

A paper was read by Mr. Burke relative of the finances of the city in which he recited the increases in salaries and appropriations made during the past year and also what is demanded of the city at the present time In conclusion Mr. Burke said that the only way the city can keep her credit good is by paying her bills and living within her expenses.

Resolution appropriating the sum of $24,000 for continuing the work of constructing the new public school building for colored children which will cost about $75,000 when completed was adopted. Under the rules it was laid over by the board of aldermen.

An ordinance providing for the dedication of the streets and alleys in East Rosemont was presented an after a protracted debate in which most of the members of council participated, the ordinance was laid over until the next meeting and in the meantime a resolution that the committee on finance and streets report what streets council will accept in the annexed territory will be considered and reported on with the ordinance.

Resolution that the city council loan the armory to the Alexandria Community Service and Alexandria Post No. 24 American Legion for a year beginning February 15 was presented by Councilman Ticer, The reason for the Community Service wanting to get new quarters was that it has been notified to move from the Elks' Hall. The resolution brought forth considerable debate.

Capt. George H. Evans, representing the Community Service, was given the floor and he gave a detailed statement of the various activities of the Community Service. During the past three months he said 9,000 persons have passed through its doors and the average attendance is 150 a night. All of the children of the city he said belong there and he thought it not right to measure the matter in dollars and cents. Capt. Evans said the community service is permanent and supported by the citizens of Alexandria.

The debate was brought about because it was stated that council only recently rented the place to Leo M. Sweeney at $60 a month and that Mr Sweeney had gone to considerable expense in fitting up teh place and buying equipment and that Mr. Sweeney had an understanding that his rent after February 1 would be fixed upon by city council.

The matter was referred to the joint committee on finance and public property.

Councilman Fletcher asked about a resolution advocating the construction of a modern roadway to the cemeteries on Wilkes and Alfred to the cemeteries. He said he understood that the sum of $10,500 was to have been recommended at this meeting for its construction. Councilman Burke explained that the city engineer expects to have the cost of constructing a sewer on this street at the next meeting and that the sewer will have to be laid first.

Mr. Fletcher also introduced a resolution that a committee of two from each board be appointed to cooperate with a committee from the Chamber of Commerce and urge upon the state highway commission the construction of a road between this city and Fairfax Courthouse. President Burke named on this committee Messrs. Fletcher and Ruben. The resolution appropriates $100 to help defray their expenses to Richmond. In the board of aldermen Messrs. Anderson and Batcheller were named on the committee.

A resolution was adopted that the pay of the firemen recently increased, become operative from January 1.

Permission was given J. A. Eggborn and Howard S. Campbell to erect gasoline tanks in front of their places of business. The Piggly Wiggly Company was granted permission to make alterations to doors at 518 King street.

Resolution appropriating $200 for installing lighting alarm system at Columbia engine house was referred to joint committee on fire and finance.

Communication from Kenneth W. Ogden, fire chief, enclosing bill for $151.25 for medical services for fireman Leonard Ford, who was hurt in a fire December 4 was referred to joint committee on fire and finance. Permission was granted John Harris to erect addition at 312 South Alfred Street.

BASKET BALL MONDAY

The "Invincible Six" defeated the "Peps" Monday night by a score of 23 to 6. The work of the guards was good, causing the score to be small. The players on the winning team was as follows: Center, Isabella Noble; side center, Inez Ayers; guards, Mary Davis and Isabella Abramson; forwards, Teresa Connell; captain, and Catherine Baumgardner. The "Peps" were: center, Margaret Armstrong; side center, Courtney Nugent; guards, Theresa Boyd and Margaret Griffith; forwards, Lillian Fannon and Mary Hamilton.

Margaret Griffith and Lillian Fannon played well for the losers, while Catherine Baumgardner shot the most goals and Teresa Connell did fine team work.

MAY OPPOSE EXTRADITION

Wilson is Expected to Restate Position in Reply to Message From Crown Prince

Washington, Feb. 11.—President Wilson had before him last night a personal cablegram from Frederick Wilhelm, former Crown Prince of Germany, suggesting "if the Allied and associated Governments want a victim, let them take me instead of the 900 Germans who have committed no other offense than that of serving their country in the war."

Officials here were inclined to view Frederick Wilhelm's act as a "grandstand play." His war record, they asserted, precludes any belief that he is genuinely heroic.

What action the President might take on the message, which, presumably, was identical with that reported in Amsterdam dispatches as sent to the rulers and Presidents of other powers opposed to Germany in the war, was not disclosed. There was a suggestion at the White House that he might reply, making his message the vehicle for a re-expression of the opposition to trial of the former German Emperor or other enemy officials expressed by American delegates, at Paris. In some quarters, however, the opinion prevailed that he would not even acknowledge its receipt since, it was pointed out, the United States is not a party to the treaty or a member of the League of Nations, and has no legal voice in any proceedings as to extradition of German officials or officers for trial.

SUBMARINES MISSING

Norfolk, Va., Feb. 11.—With its crew exhausted from a struggle with storms, a mother ship which started out from Bermuda five days ago with four submarines arrived here last night. Of the four submarines which accompanied it, only one has come in, its crew likewise exhausted.

Revenue cutters and other vessels have been dispatched to sea in search of the missing submersibles.

The crews of the two ships which reached this port were obliged to drink salt water for three days.

DRY DEPARTMENT ENDS SEPT. 1, 1922

Gilpin Bill Withdrawn and Substitute by Deans Passed

THE DRYS ARE SCORED

Vote Stands 72 to 10—Alexandria Member of House of Delegates Votes With Majority.

Richmond, Feb. 11.—By a vote of 72 to 10 the House yesterday evening decided to continue the State Prohibition Department until September 1, 1922. This action came after amendments providing for abolition of the office September 1, 1920, and September 1, 1921, respectively, had been voted down. The Gilpin bill, providing for immediate abolition of the department, was withdrawn before debate on the question of extension began, the delegate from Clarke realizing that his measure had no chance of passing.

Delegate Parke P. Deans, of Isle of Wight, offered a substitute for the whole, which provided for continuance of the department until September 1 1922. It was this amendment that was adopted. An amendment to the Deans substitute, offered by Delegate Gilpin, which extended the life of the department until September 1, 1921, and another offered by Delegate Jesse of Alexandria, specifying September 1, 1920, as the date on which the office should be abolished, were defeated. Mr. Jesse subsequently voted for the Deans substitute.

Debate began at 12.30 and continued with a recess of one hour, until 7.45 o'clock. It was marked by two verbal tilts—one between Delegates Rogers, of Petersburg and Norris, of Lancaster, and the other between Delegates Gilpin and Deans. The Norris Rogers episode resulted in an apology being forthcoming from the delegate from the Cockade City.

The Department of Prohibition came in for a scathing arraignment from more than one of the advocates of its abolition, one of whom declared that it was conceived by deception, born of political expediency and nurtured by religious hypocrisy. The Anti-Saloon League did not escape the castigation of one of the more vehement proponents of abolition of the Prohibition Department, by whom the organization was characterized as a parasite upon the body politic.

WILL CONTROL 3,000 STORES IN AMERICA

Business Houses and Textile Plants Figure in Colossal Concern

CUT DOWN SALES COST

Charter Has Been Obtained in Maryland by Company of Prominent Capitalists.

Richmond, Feb. 11.—Formation of probably the greatest mercantile corporation in the world with three-quarters of a billion dollars capital, which will own and control vast numbers of manufacturing plants, distributing jobbing establishments and general merchandise retail stores became known here yesterday through statements by Norman H. Johnson, secretary of the Southern Wholesale Dry Goods Association.

For weeks the work of buying scores of stores, textile and manufacturing plants throughout the country, and particularly in the South, has been under way and when the complete consolidation is affected it is estimated that there will be nearly 3,000 retail stores in the chain to be formed.

According to the information, the massive consolidation move has behind it George J. Wheeling of the United Cigar Stores, the United Retail Stores Corporation, and James B. Duke, of the American Tobacco Company, besides a score of other prominent capitalists.

It is understood that under the present plan the great corporation will open general stores in practically every city where there is now a United Cigar Store.

It is understood that the corporation has already purchased several large textile mills and that negotiations are underway for many more. The corporation proposes to operate on the cash and carry basis ,and it is planned to cut prices by taking the product from the raw direct to the consumer through the system of manufacturing plants, distributing, jobbing stations, and retail stores.

Elimination of the entire wholesale machinery is the plan of the new corporation, thus cutting down sales costs.

ON TRIAL FOR KILLING TWO

Fairmont (W. Va.) Man Shot Wife And Her Paramour, is Charge

Fairmont, W. Va., Feb. 11.—The trial of Nick Bostic, charged with the murder of his wife and Joe Spatafore two months ago at the latter's home here, was begun in Criminal Court Monday. It required some time to impanel a jury. Bostic is represented by Major M. M. Neely.

Bostic shot and killed his wife and Spatafore, the defense claims, in desperation over separation from his wife, who had gone to live with Spatafore during Bostic's absence overseas in army service. On his return his wife refused to live with him, it is said, and continued to stay with Spatafore. Evidence today was to the effect that while overseas Bostic sent money to his wife for the education of their child and that the money was turned over to Spatafore, who used it in buying a home for himself and Mrs. Bostic. The defense is also trying to show that Bostic shot his wife accidentally while trying to kill Spatafore.

THE INEVITABLE INCREASE

Somewhere in the Book of Job the Chaldean patriarch exclaims substantially, "That which my soul abhored has come upon me." The spectre of an increase in taxes has been crossing the path of Alexandrians lo these many years. But the practical men who have been on the finance committee of the City Council during the past half a century have so far, managed to fight it off by this and that recourse. They have, however, reached their ne plus ultra—truly their utmost exertions, can carry them no farther. Our citizens must pay more taxes—and that is the end of all contention.

The proceedings of the City Council last night were ominous. The statement read by H. R. Burke, President of the lower board, and chairman of the finance committee is as clear as the noon day sun—we are spending more money than we collect, and are harnessed with responsibilities which must be met. And as Council cannot make bricks without straw, increased taxation is inevitable. Three ordinances providing for raising revenue for the city during the next fiscal year were submitted and referred to the proper committee. One provides for a special tax of fifty cents on every one hundred dollars worth of tangible property in the city is most interesting.

Colossal sums of money have been spent legitimately by our fathers during the past score or more of years. Most improvements have been our modern ideas, sewers have been constructed in every section of the city, new school houses have been built, our fire department equipped with the latest motor apartus, while the pay of all city employees has been materially advanced.

But while our city is staggering under its financial burdens and with a debt approximating a million dollars, delegations of citizens have from time to time appeared in Council chamber and clamored for this and that improvement, costing thousands of dollars. While most of their requests have been met, it should have long been apparent to enthusiastic people that there is much enjoyed by larger and more wealthy cities that Alexandria cannot, at present, procure.

Mr. Burke, be it remembered, is a business man, a financier. He has been tutored in monetary affairs from his early childhood. His father, the late John W. Burke, and his brother, the late N. P. T. Burke, were members of Council in their day. Careful and far-seeing these practical citizens piloted Alexandria through some crises at times. The youngest of the trio is the level-out man of the year—of this decade and generation.

Mr. Burke's statement is published in full in the official proceedings of the City Council elsewhere in today's Gazette. It should be read carefully by every citizen, especially those owning property, real or personal. We will only make one selection from his exhibit:

"Last June a number of our people clamored for what was termed an efficient Health Service. There was some difference of opinion as to whether or not its necessity justified its cost. However, no one in council voted against it. Only recently Mr. George D. Hopkins and others urged the necessity of certain improvements on north Fairfax Street. At the last meeting of Council a member wanted south Washington street improved at a cost of $14,000.00 or $15,000.00. The representatives of the School Board, $20,000.00 to finish the new school for colored children, which will make the cost of building and lot $75,000.00. The chairman of the school board wants $3,500.00 for a lot at the corner of St. Asaph and Wolfe streets, and also $6,500.00 for improving the high school grounds. Now this brings us to a consideration of the 50 cents addition to the tax. The State, as previously mentioned, allows the cities to levy a special tax of 50 cents for school purposes. That is the maximum any person can probably prevent a higher figure imposed directly or indirectly. Say the taxable values are eight millions $8,000,000.00. It would provide $40,000 less 2 1-2 per cent for collecting and 1 1-4 per cent to Commissioner of Revenue for assessing which, should yield about $38,000, provided the usual discount was not allowed."

"I shall patiently wait and see if any person or any committee will desire to appear before Council and ask that these increases be made. I shall also be appreciative and informed if any one in our city desires to communicate with the finance committee resisting and disputing this increase of fifty cents for schools. The requests, not demands, which have been made for street and sewer construction, the fire department, police force, public school, public debt, the poor, health department, &c., cannot be met under our present assessment at our present tax rate."

BRYAN ON THE PAYROLL

The admission by the Prohibitionists that William Jennings Bryan has been put on their payroll as a dry spellbinder and an active worker for the enforcement of the Eighteenth Amendment causes no surprise says the Baltimore Sun. "In becoming a part of the professional machine he is simply making an alliance which his heart as well as his pocket dictates. Wall street, the railroads and wicked business interests have often been accused by Mr. Bryan of having paid agents in national conventions, but this will be the first time that Mr. Bryan has figured at one of these gatherings in that role."

(Communicated)

Editor, Alexandria Gazette:

If the Virginia suffragettes have a sense of humor, they will at least get a good laugh out of the recent defeat of the Suffrage Amendment in the Virginia Legislature. The suffragettes can exclaim, feelingly, with Shakespeare's character, "Consistency! Thou art a jewel, alas!" The Virginia Legislature solemnly rejected the Suffrage Amendment because they thought it an invasion of the doctrine of States' Rights. In the Legislature's opinion, the question of whether or not women should vote, should be submitted to the people of the States for decision and should not be settled by means of a Constitutional Amendment. This same Legislature breathed not a whisper concerning the sacred doctrine of States' Rights when the Prohibition Amendment was shoved through with a whoop and a bang. It is true that the State of Virginia voted for State-wide prohibition, but that clever feat of political engineering was put through because it had the "quart-a-month" loophole in it. Many of our voters cast their ballot in favor of State wide prohibition with the metal reservation that "I can get my quarth a month, notwithstanding, if I have the price." Then, when the Reed Bone Dry Law abolished the "quart-a-month" oasis, a change came over the spirit of the land, and many of the voters, finding that they had been "stung," began to drift from the dry to the wet column. Had the Prohibition Constitutional Amendment been submitted to the people of the State, it is quite doubtful if it would have passed. And what does the worthy Virginia Legislature say of the statement of Wayne B. Wheeler, General Counsel of the Anti-Saloon League, who speaks as follows;

"Personal liberty never was guaranteed to the citizens of any civilized government. Civil liberty is guaranteed. The states rights doctrine was settled once for all during the civil war. To invoke it now to nullify the eighteenth amendment is inexcusable. Those who are responsible for it will be characterized in the future as Andrew Jackson described those who attempted to nullify the federal laws in his day, in these words: 'These will only be remembered to be held up to scorn by every one who loves our glorious Constitution and a government of laws!'"

Alas and alack, my brothers, we are living in parlous times. Washington and Jefferson would have difficulty in recognizing the grand old Democratic party, Wilsonized and dryized as it now is, and many thoughtful independent voters, who have no political axes to grind are honestly in doubt as to whether or not ex-Senator Bailey was right when he left the present alleged Democratic party because in it he could not recognize genuine, old-fashioned democracy. Senator Goolrick of Fredericksburg was right when he said that the time had come for the Democrats of the country to throw aside William Jennings Bryan (that professional politician and christian) and all of his ilk, unless they wanted to name him for President and let the party go down in defeat with him for the fourth time. Lincoln was right when he said that all the people could not be fooled all the time, and unless both the Democratic and Republican parties purge themselves of the hypocrisy and cowardice which now characterize both of them, they may wake up some fine day in the near future to find a new party paramount and the Republican and Democratic parties in the scrap heap.

Old Fashioned Democrat.

NO "SHAKE UP" IN CASCARETS

You'll Not Be Sick, Upset and Sorry Next Day if You Take "Cascarets" for Liver and Bowels

Cascarets never gripe, sicken or inconvenience one like Salts, Oil, Calomel or harsh Pills! Feel bully! Be efficient. Don't stay sick, bilious, headachy, constipated. Remove the liver and bowel poison which is keeping your head dizzy; your tongue coated your breath bad and stomach sour. Why not spend a few cents for a box of Cascarets and enjoy the nicest gentlest laxative-cathartic you ever experienced? They don't shake you up and keep you in misery all day. They work while you sleep. Switch to gentle Cascarets.

The board then adjourned.

H. R. BURKE, President.
Teste—Daniel R. Stansbury, Clerk.

Statement of the Chairman of the Finance Committee made at a meeting of the Common Council February 10, 1920.

I am presenting tonight three ordinances in reference to tax levies year 1920-21. To make a plain statement as to the rates and intents. I read from typewritten notes in order that no back fire as to what is said by me shall be misunderstood.

The time is here to speak plainly without bias, unnecessary criticism or fault-finding.

John Sherman, of Ohio, and Secretary of the Treasury under the Hayes Administration and for many years a Senator from his State, was, I think, the person who in discussing financial conditions in the late seventies or the early eighties, as to the "resumption of specie payments" in answer to those who asked how it was to be done replied, "The way to resume is to resume" Later, President Cleveland, in discussing tax and tariff measures gave birth to the oft quoted statement "It is a condition and not a theory that confronts us," or something like that. One can take Mr. Sherman's "to resume" and apply it to our problems when possible. We must spend only what we can raise and resume a habit to that effect. What Mr. Cleveland said as to conditions and theories applies to every legislative body today.

This brings us to the consideration of the ordinances referred to in the first lines of this paper.

For convenience the first ordinance is in effect precisely what it was last year 1919, and will no doubt raise approximately what will be paid into the Treasury by Collector Gorman and Treasurer Robinson this fiscal year 1919-1920.

The second ordinance is in words what the first ordinance presents with a provision for a special levy of 50c the proceeds from which will be turned into the Public School Fund in lieu of an appropriation.

The third ordinance is a merchants tax license to conform to State law and first used in 1917, prior to which time Merchants paid on Capital. The changes in this ordinance as compared with the ordinance in 1917 is a raise of $35.00 as to the minimum tax, and this minimum applies to every merchant, large or small sales. It would raise only about $1,000 increase, perhaps a little more.

I am presenting, not attaching my name to either one of these ordinances. The Finance Committee must consider them. To suggest an increase in the tax rate is not the most pleasant duty of legislation. The members of Council are familiar with the recent visit of a number of representative and business men of our city. The floor of this Chamber has been given them to suggestions, give advice, urge certain work, or state greivances if you please, real or imagmary. The City Council has in joint session heard them courteously and patiently with my consent and approval. They state a disease but recommend no remedy. Voting an appropriation does not raise money. Resolutions or ordinances referring to the Finance Committee is not a sufficient medicine.

Last June a number of our people clamored for what was termed an efficient Health Service. There was some difference of opinion as to whether or not its necessity justified its cost. However, no one in Council voted against it. Only recently Mr. Hopinks and others urged the necessity of certain improvements on North Fairfax Street. At the last meeting of Council a member wanted South Washington Street improved at a cost $14,000 or $15,000. The representatives of the School Board, $24,000 to finish the new school for colored children which will make the cost of building and lot about $75,000. The chairman of School Board wants $3,500 for a lot corner St. Asaph and Wolfe and also $6,500 for improving High School Grounds. Now this brings us to a consideration of the 50 cents addition to the tax. The State, as previously mentioned allows the Cities to levy a special tax of 50 cents for School purposes. That is the maximum(any person can probably prevent a higher figure imposed directly or indirectly. Say the taxable values are eight millions, $8,000,000.00. It would provide $40,000 less 2 1-2 per cent for collecting and 1 1-4 per cent to Commissioner of Revenue for assessing which should yield about $38,000 provided the usual discount was not allowed.

These ordinances will be referred back for passage at the next meeting February 24th. I shall patiently wait and see if any person or any committee will desire to appear before Council and ask that these increases be made. I shall also be appreciative and informed if any one in our City desires to communicate with the Finance Committee requsting and disouting this increase of fifty cents for schools. The requests, not demands, which have been made for Streets and Sewer construction, the Fire Department, Police Force, Public School, Public Debt, The Poor, Health Department etc., etc., cannot be met under our present assessment at our present tax rate. I have not mentioned what will be the probable receipts fiscal year 1920-21. That need not be discussed now, sufficient to say hardly as much as present year, and all will be needed and more, much more.

In referring these ordinances to the Finance Committee which under the rules of Council are charged with their consideration, it can be said my reference to committees appearing before Council and asking for appropriations etc., is not intended as a challenge to their judgement, interest or rights, but first to enlist their co-operation in keeping our expenditures within our recepts and second, to have them point the way to produce more money, and not ask the finance committee to go on spending trusting to luck.

A thing may be desirable, may be claimed as essential, but may not be really necessary, Indeed it speaks better as to ones character or reputation to wear an old suit of clothes which he has paid for, than to get one on credit, then borrow money to pay, and in the end curtail and curtail a note.

VIRGINIA NEWS

Public schools and motion picture theaters of Abingdon were ordered closed by health officers yesterday as a prevention measure against a spread of flu.

The body of Albert Poole, 23 years old, who died of pneumonia last week in Baltimore, was interred in a mountain graveyard twenty miles west of Winchester Monday under great difficulties, because of the huge snowdrifts encountered. A motor hearse was unable to make the trip. Two large bobsleds, each drawn by four heavy draft horses, were pressed into service. A concrete burial case was placed on one, and the casket on the other, while the relatives and friends sat on the sides of the sleds. It required nearly an entire day to make the trip.

The Episcopal council of the diocese of southern Virginia convened in annual session yesterday morning in Grace Episcopal Church, Petersburg, with about 75 delegates in attendance. Holy communion was followed by organization of the council, which was called to order by the Right Rev. B. D. Tucker, chairman. Among the reports submitted at the afternoon session was that of the diocesan committee of the nation wide campaign, which was presented by the Rev. C. Braxton Bryan, rector of Grace Church, Petersburg. At last night's session addresses on the Christian ministry were made by the Rev. C. Braxton Bryan, D. D.; the Rev. W. C. Bell, D. D.; the Rev. W. E. Rollins, D. D.; and the Rev. B. D. Tucker, Jr.

The State Democratic convention at which delegates will be chosen for the national convention in Chicago, will be held in Roanoke May 19. This was the unanimous decision last night of the Central Committee meeting in Richmond. A resolution introduced by R. A. McIntyre, of Warrenton, G. L. Boothe, of Alexandria, and Allen Jones of Newport News, urging the general assembly to ratify the suffrage amendment, was voted down. Few of the committeemen favored the proposal.

Big Value in Tires for Small Cars

Back of the manufacture of Goodyear Tires for small cars is the same purpose to supply high value in the product that is behind the manufacture of the Goodyear Tires that equip the most expensive automobiles built.

This purpose is expressed by the enormous resources, extraordinary skill and scrupulous care applied to the manufacture of Goodyear Tires in the largest tire factory in the world devoted solely to the 30x3-, 30x3½-, and 31x4-inch sizes.

The effect of this endeavor is noted in the fact that last year more cars using these sizes were factory-equipped with Goodyear Tires than with any other kind.

It is also noted in the fact that, if you own a Ford, Chevrolet, Dort, Maxwell or other car requiring the sizes mentioned, you can secure Goodyear Tires and Goodyear Heavy Tourist Tubes at the nearest Goodyear Service Station.

30x3½ Goodyear Double-Cure Fabric, All-Weather Tread $20.00

30x3½ Goodyear Single-Cure Fabric, Anti-Skid Tread $17.65

Goodyear Heavy Tourist Tubes are thick, strong tubes that reinforce casings properly. Why risk a good casing with a cheap tube? Goodyear Heavy Tourist Tubes cost little more than tubes of less merit. 30x3½ size *in water-proof bag* $3.90

UNCLE SAM GIVES FREE SCHOLARSHIPS

United States Marine Corps School Has "Earn While You Learn" Courses

Hereafter young men enlisting in the Marine Corps will not only learn to be soldiers, but, if they wish, they may go regularly to school. After one, two, three or more years the Marine may be graduated as an expert automobile mechanic, chauffeur, plumber, or what not. Not only that, but the United States Government puts at his disposal its tremendous influence with employers in satisfactorily placing the U. S. Marine Corps Institute graduate in a well-paying job.

The young man who is facing the hard problem of making a living while working his way through high school, college or trade school should welcome the opportunity afforded by the Marine Corps Institute. By this plan he is not only enabled to gain the education he desires, but at the same time—

Lead a healthful, body-building outdoor life, receive free board, clothing, lodging and medical attendance—thus leaving his pay for "pocket money" or for a snug savings account.

To the average "red-blooded" young American, the Marine Corps, with its adventurous, carefree life, and its opportunity for travel by land and sea, at home and abroad, has always proved particularly alluring. When to these are added a chance of a good education—

Well, it makes a long apprenticeship at a trade, or weary hours at night school, look rather unattractive by comparison.

The Marine Institute

The U. S. Marine Institute, which bids fair to become as famous as the Naval Academy at Annapolis, or the Military Academy at West Point, is already well under way at the Marine post at Quantico, Virginia.

Hundreds of young men are enrolled in courses that range from reading, writing and simple arithmetic to such subjects as higher mathematics and journalism.

The man comes into the Marine Corps barely able to sign his name, perhaps with a grammar school education and continues to learn to the limit of his ability and the length of his enlistment. Among the courses open to the Marine are elementary and advanced English, mathematics in practically all its branches, French, Spanish, stenography and clerical work, automobile mechanics, horsemanship and care of horses in sickness and health, forestry, concrete and brick masonry, carpentry, electrical mechanics, plumbing, blacksmithing, house painting, band music, drafting, journalism, cooking and baking, etc., etc.

The instructors are not only competent teachers, but eminently practical men, and are selected for their proficiency regardless of their rank in the Marine Corps. For example, the teacher of Spanish is a corporal, who is a law graduate of a foreign university, and a former public school teacher. Many of the trade schools are in charge of instructors who are graduates of Annapolis, Massachusetts Tech., Stevens Institute, Colorado School of Mines, and other leading institutions. Others have received their training in such great industrial corporations as the General Electric Company, the Standard Oil Company, the Baldwin Locomotive Works, and so on.

All students enrolled in the Marine Institute courses receive their instruction on an average of three hours for five afternoons each week, all purely military training being confined to the morning hours. The evenings may be devoted to study, reading, or the various camp recreations, such as the free movie shows or the pool tables.

We hear a great deal about "college life," but it is extremely doubtful if any of our institutions of learning afford more opportunity for pleasant companionship with real good fellows than does the Marine Corps. For this branch of service attracts the sort of a man who has the makings of a "good fellow." Few colleges can offer any better facilities for baseball, football, boxing, swimming and other athletic sports—all under the direction of competent trainers and coaches. And no school, unless it is a military institution of the first rank, can approach the Marine Corps in giving a man that self-reliance, alertness and qualities of leadership which military training affords.

If you are even slightly interested, don't hesitate to call at a Marine Recruiting Office. You will not be urged to enlist, but you will be told the truth, and nothing but the truth, about the service. Send for booklet.

A SPLENDID TONIC

Says Hixon Lady Who, On Doctor's Advice, Took Cardui And Is Now Well.

Hixson, Tenn., —"About 10 years ago I was," says Mrs. J. B. Gadd, of this place, "I suffered with a pain in my left side, could not sleep at night with this pain, always in the left side. My doctor told me to use Cardui. I took one bottle, which helped me and after my baby came, I was stronger and better, but the pain was still. I at first let it go, but began to get weak and in a run-down condition, so I decided to try some more Cardui, which I did.

This last Cardui which I took made me much better, in fact, cured me. I have no return of this trouble.

I feel it was Cardui that cured me, and I recommended it as a splendid female tonic."

Don't allow yourself to become weak and run-down from womanly troubles. Take Cardui. It should surely help you, as it has many thousands of other women in the past 40 years. Headache, backache, sideache, nervousness, sleeplessness, tired-out feeling, are all signs of womanly trouble. Other women get relief by taking Cardui. Why not you? All druggists.

CLEVELAND

Owners' Approval Is Like a Rousing Cheer

The Cleveland Six, from coast to coast, is establishing its place in motordom. The bitter cold days of the Northern winter have proved its ease of starting, just as the hot summer days, when hundreds of new Clevelands were being driven across the country, proved the perfection of its radiation.

The Cleveland Six is in the hands of owners all over the United States today, and the chorus of satisfactory approval from these owners is like a rousing cheer. They say the car surpasses them, pleases them, delights them. Its pliant power, its simple ease of handling, its boat-like comfort, surpass all expectations.

If you hope and plan to start the new season with a new five-passenger touring car which is a real fair, or such a car of roadster type with wide, deep seat of restful cushioning and plenty of stow-away space, then come in and see the Cleveland Six.

A study of this car will interest you. A ride in it will convince you.

Physician Gives Practical Advice on What to Do To Help Build Up Your Strength Power and Endurance—Explains

How Organic Iron—Nuxated Iron—Helps Put Renewed Vim and Energy Into the Veins of the Weak, Nervous and Run-Down—

You can tell which people have a firm Grip on Health—Strong, Vigorous Folks with Plenty of Iron in Their Blood

Thousands of men and women are impairing their constitutions laying themselves open to illness and literally losing their grip on health simply because their blood is thinning out and possibly starving through lack of iron.

To possess the power, energy and endurance that win the blood should be rich in strength-giving iron. For this purpose physicians below explain why they prescribe organic iron—Nuxated Iron—which by enriching the blood and creating thousands of new red blood cells often quickly transforms the flabby flesh, toneless tissues and pallid cheeks of weak, anæmic men and women into a glow of health. It increases the strength of delicate, nervous, run-down folks in two weeks' time in many instances.

In explaining why he regards iron as absolutely essential to the greatest development of physical and mental power, Dr. George H. Baker, formerly Physician and Surgeon, Monmouth Memorial Hospital of New Jersey, says:

"Refined foods and modern methods of cooking have robbed us of much of the iron which Nature intended we should receive and for supplying this deficiency and increasing the red blood corpuscles I know of nothing more effective than organic iron—Nuxated Iron. The fact that Nuxated Iron is today being used by over three million people annually as a tonic, strength and blood-builder, is in itself an evidence of tremendous public confidence and I am convinced that if others would take Nuxated Iron when they feel weak and run-down it would help make a nation of stronger, healthier men and women."

Commenting on the use of Nuxated Iron as a tonic, strength and blood-builder, Dr. [illegible] Pamela Sullivan, formerly physician at [illegible] York, and the Westchester County Hospital, said:

"In my opinion the greatest curse to the health and strength of American people of today is the alarming deficiency of iron in their blood. Lack of sufficient iron in the blood has ruined many a man's nerves and utterly robbed him of that virile force and stamina which are so necessary to success and power in every walk of life.

"Therefore I strongly advise those who feel the need of a strength and blood builder to get a physician's prescription for organic iron—Nuxated Iron—or if you don't want to go to this trouble, then purchase only Nuxated Iron in its original packages and see that this particular name (Nuxated Iron) appears on the package."

Numbers of nervous, run-down people who were ailing all the while have most astonishingly increased their strength and endurance simply by taking iron in the proper form. And this after they had, in some cases, been doctoring for months without obtaining any benefit.

Manufacturers' Note: Nuxated Iron, recommended above, is not a secret remedy but one which is well known to druggists everywhere. Unlike the older inorganic iron products, it is easily assimilated, does not injure the teeth, make them black, nor upset the stomach. The manufacturers guarantee successful and entirely satisfactory results to every purchaser or they will refund your money. It is dispensed in this city by all good druggists.

MRS. UHL SEEKS DIVORCE

Names Two Women and Wants Custody of Children

Cumberland, Md., Feb. 11.—Mrs. Kate Uhl, 27 years old, acquitted Saturday by a jury of the murder of Edgar Bryan Pownell, of Three Churches, West Virginia, on December 31, yesterday entered suit for divorce from her husband, Mervin Uhl, on the ground of infidelity.

Bertha Johnson and Bessie Mitchell are named as corespondents.

Uhl, on the witness stand, confessed to having been in the company of Bertha Johnson the night before the killing. A few days before the trial of his wife he was arrested at a hotel here in company with Bessie Mitchell. In connection with the arrest he forfeited $15, which he posted in police court.

Mrs. Uhl also charges that Uhl kept company with other women of questionable character, unknown to her.

Allegations of cruelty and not giving proper support to her and their three children for whose custody she asks are also made.

After Mrs. Uhl's acquittal Saturday, she and her husband are said to have held a brief conversation. Then Mrs. Uhl bundled up her children and left with her father for Mount Savage, while Uhl lingered about the court house. On Sunday he was seen to board an east-bound Baltimore and Ohio train with a suitcase and it is said that he stated he was going to Philadelphia. It was reported before the trial Uhl remarked that he would hang around until it was over and then "beat it."

THE razor Lincoln used was not unlike the man himself—in outward form, unassuming, and yet an instrument of exquisite balance—with a time-saving length of blade, a fresh, keen-stropped edge for the work in hand and a wondrously even temper.

One pictures Lincoln as full of affection for this honest blade despite the fact that his deep-furrowed face was not the easiest to shave. The only things that Lincoln's razor really needed to lighten the patient morning task were the safety and convenience of the guarded, *double-edged* blade of the

BETTER THAN CALOMEL

Thousands Have Discovered Dr. Edwards' Olive Tablets Are a Harmless Substitute

Dr. Edwards' Olive Tablets are the result of Dr. Edwards' determination not to treat liver and bowel complaints with calomel. For 17 years he used these tablets (a vegetable compound mixed with olive oil) in his private practice with great success.

They do all the good that calomel does but have no bad after effects. No pains, no griping, no injury to the gums or danger from acid foods—yet they stimulate the liver and bowels. Take Dr. Edwards' Olive Tablets when you feel "logy" and "heavy." Note how they clear clouded brain and perk up the spirits. 10c and 25c a box.

MAY STOP RAIL STRIKE

Department of Justice to Seek Injunction If Necessary, Is Report

Washington, Feb. 11.—With the possibility of a nation wide railroad strike on the point of wrecking government officials last night were seeking a way to prevent the economic catastrophe which would follow such a move on the part of the railroad employes.

The Department of Justice, it was learned, may attempt to stop the breach by using the power of a Federal injunction against the officers of the railroad brotherhoods, who have threatened a country wide strike unless their wage demands are granted.

The injunction, if brought, would be similar in form to that taken out against the striking coal miners last November at Indianapolis, and hold the brotherhood leaders in contempt of court for calling the strike which would be set for February 13.

While Department of Justice officials refused to state yesterday what their action will be, it is known that under the terms of the Lever act they are empowered to bring the injunction in such an emergency. The act specifically provides against the strike contingency as a comspiracy to prevent the distribution of food or fuel.

WOMAN KILLED BY TRAIN

Was Driving Horse Over Tracks Near Viola, Del

Wilmington, Del., Feb. 11.—Mrs. Margaret Taylor, 40 years old, wife of a farmer living near Viola, Del., was instantly killed yesterday while crossing the Pennsylvania Railroad tracks at Viola, when a southbound passenger train struck the horse which she was driving. The horse was killed and the carriage thrown 75 feet. The engineer of the train was unaware of the accident until the train was stopped by orders of the conductor. The train backed to where the woman was lying.

It is thought that the horse became unmanageable. The Taylors had lived at Viola but two years, being formerly of Canada, where the body will be taken for interment.

AN ALEXANDRIA INTERVIEW

Mrs. Nalls Tells Her Experience

The following brief account of an interview with an Alexandria woman four years ago, and its equal, will be read with keen interest by every citizen.

Mrs. L. C. Nalls, 911 Duke St. Alexandria, says: "I could hardly get around the house my back was so weak and sore, and when I got down it was almost impossible to straighten up again. I couldn't rest at night and mornings I felt so weak and tired all over it was all I could do to dress. My kidneys acted irregularly and caused me a great deal of misery. My head ached a great deal; it was a dull, steady pain. I got Doan's Kidney Pills at Summer's Drug Store and the first box did me so much good I used another. My back stopped aching and my kidneys haven't caused me any trouble since.

Mrs. Nalls gave the above statement on April 10, 1915 and on March 15, 1919 she added: "I was pretty bad off with kidney trouble and nothing helped me the way Doan's Kidney Pills did. Doan's are the best kidney remedy I know of."

Be Strong

THE strong and vigorous man or woman is envied by less fortunate humanity afflicted with aches, pains, infirmities and ailments. The sufferer says to himself, "If I could only be well, how happy I would be," for health is more essential to the joy of living than is wealth.

The kidneys almost literally wash the blood and keep it clean and free from impurities. When the kidneys are out of order, they fail to filter out this waste and poisonous matter. It remains in the system to cause backache, rheumatic pains, sore muscles and stiff joints.

Foley Kidney Pills

help the system eliminate this poisonous waste. They soothe, strengthen and heal sore, weak and diseased kidneys and bladder. When the kidneys are working properly, appetite returns, refreshing sleep is possible, and health and strength come again.

C. W. Smith, 1208 No. 4th St., Dallas, Kas., writes: "I am very much pleased with Foley Kidney Pills. I am working in a coal yard and have been very much troubled with my back. I have taken several doses of Foley Kidney Pills and they have already helped me.

GRAND THEATRE

Powerful undercurrents of life in the slums flow through the story of "Regeneration" a William Fox photoplay which comes to the Grand Theatre tonight. It pictures the life of Owen Kildare, author of "My Mamie Rose," on which the photoplay is based. Kildare was a bowery tough in New York City, having grown up in the East Side slums. He met a young woman school teacher, who taught him to read and write. It was she who inspired the writing of the story of his life, which, when dramatized, scored a big success on Broadway as a legitimate play.

The wonderful pathos and gripping romance of the picture lie in the fact that the school teacher died on the eve of her marriage to the author. Kildare himself became half crazed with his unexpected success as an author and died soon after. Also "The Midnight Man."

If you are just recovering from a fight with the 'Flu", it will be weeks before you're really out of danger.

Your blood has exhausted its strength—it is in no condition to fight off other disease germs it may be exposed to. That is why doctors advise staying away from crowds as long as possible.

You can help your blood get back its strength—its stability to fight off disease—by taking that splendid tonic Pepto-Mangan.

The famous blood builder will supply the iron and other properties your blood lacks and help you regain your old time vigor and enthusiasm.

Get Pepto-Mangan today. It may be had at any drug store in either liquid or tablet form. Make your own choice as to liquid or tablet. They are exactly the same in medicinal value. "Take which ever you prefer.

But be sure you get the genuine Pepto-Mangan. Ask for "Gude's" and be sure that the name is on the package.

IT'S WINTER STORING

Has flattened out the surface of your velvet suit, but our steaming process will make the pile stand up again and it will look as good as the day you first donned it.

Our dry cleaning methods are scientifically correct and our steaming and pressing is done in a sanitary manner. Dainty Dorothy says your wardrobe needs our attention.
